Services Offered

Dental Cleanings

Professional dental cleanings remove plaque and tartar buildup. Patients are recommended to schedule cleanings every 6 months.

Average cleaning appointment duration: 30–45 minutes.

Dental Exams

Comprehensive dental exams include evaluation of teeth, gums, jaw alignment, and oral health.

New patient exams usually include X-rays.

Teeth Whitening

The clinic offers both in-office whitening and take-home whitening kits.

In-office whitening usually takes about 60 minutes.

Crowns and Caps

Dental crowns are used to restore damaged or weakened teeth.

Typical crown procedure requires two visits: 1. Tooth preparation and impressions 2. Crown placement

Temporary crowns may be provided between visits.

Fillings

Composite tooth-colored fillings are available for cavities.

Most filling appointments take between 30 and 60 minutes.

Root Canal Treatment

Root canal treatment is performed to save infected teeth.

Patients may experience mild soreness for a few days after the procedure.

Wisdom Tooth Extraction

Wisdom tooth extractions are available for impacted or painful wisdom teeth.

Sedation options may be available depending on the case.

Invisalign

The clinic provides Invisalign clear aligner treatment for mild to moderate teeth alignment issues.

Consultation is required before starting treatment.

Insurance Information

Caps and Crowns Dental Clinic accepts:

- Delta Dental
- Cigna Dental
- Aetna Dental
- Guardian Dental
- MetLife Dental

The clinic currently does not accept Medicaid.

Patients are encouraged to bring their insurance card to appointments.

Coverage varies depending on the patient's insurance plan.

Payment Options

Accepted payment methods:

- Credit cards
- Debit cards
- Cash
- Apple Pay
- CareCredit

Payment plans may be available for major dental procedures.

Appointment Policies

Patients should arrive 10 minutes early for appointments.

New patients should complete intake forms before arrival.

If patients are more than 15 minutes late, appointments may need to be rescheduled.

Cancellation Policy: Appointments should be canceled at least 24 hours in advance.

Repeated no-shows may result in cancellation fees.

Emergency Dental Care

The clinic offers same-day emergency appointments when available.

Dental emergencies include:

- Severe tooth pain
- Swelling
- Broken teeth
- Knocked-out teeth
- Dental trauma
- Heavy bleeding

Patients experiencing difficulty breathing or severe facial swelling should seek emergency medical care immediately.

Pediatric Dentistry

Children ages 5 and older are accepted for routine dental care.

Parents or guardians must accompany minors during visits.

Post-Treatment Instructions

After Tooth Extraction

- Avoid drinking through straws for 24 hours
- Avoid smoking for at least 48 hours
- Eat soft foods
- Mild bleeding is normal during the first few hours

After Teeth Whitening

- Avoid coffee, tea, and dark-colored foods for 24 hours
- Mild tooth sensitivity may occur temporarily

After Root Canal Treatment

- Mild soreness is common for several days
 - Avoid chewing hard foods on the treated tooth until permanent restoration is completed
